

## Module 1. Operational strategy and action plan for mainstreaming and scaling out SLM

This modul represents first step toward creation of operational Strategy needed for mainstreaming SLM into legislative framework, and decision making process on all levels. Different perceptions and approaches depending on decision making levels are discussed, existing barriers and obstacles identified, and base for Strategy is created. The Operational Strategy and Action Plan for the Republic of Srpska will be a base for development of Strategy of Land protection in the Republic of Srpska. Creation of SLM Operational Strategy of the Republic of Srpska using participatory approach with wide stakeholders. During preparatory phase numerous stakeholders were consulted (through field visits and meetings), and by email communication.
