

# WOCAT supporting SLM scaling at national and regional level

**Latin America**

# a) Achievements in using WOCAT tools and methods

- QM applied at local: Argentina, Colombia, Panama?Cuba?, sub national: Argentina, Colombia, Panama, Cuba? and national level Argentina, Ecuador, Cuba
- QT Colombia (5), Argentina, Cuba, Panama
- QA Colombia, Argentina, Cuba, Panama
- WOCAT learning methods and capacity building: Argentina, Colombia, Cuba, Panama, Ecuador
- Good practices guide: Argentina (outscaling)
- Guide for mainstreaming: Colombia
- Support to National Land Degradation Observatories (Argentina, Cuba)

## b) Future needs with regards to tools, methods and capacity building

- Support capacity building at National to National / local level
- Institutional follow up (Colombia)
- Articulation between WOCAT, FAO and UNCCD with regards to tools and methods (different levels of integration depending on the country)
- More precision for quantitative evaluation of impacts (as for the costs)
- Make a QT monitoring form with follow up indicators, compare costs, etc (users demand request)

## c) Future collaborations with WOCAT

- Follow up of undergoing processes (monitoring of results)
- Continuous improvement of tools and methods
- Articulation between WOCAT, FAO and UNCCD with regards to financing support (LDN in GEF, CGF, etc)
